## President's Message

Hi All,

I was going to begin this article with something about the end of winter and the start of a new season with all the great stuff that happens when we have warm weather here in the Bay Area. Well, scratch that, since there are still opportunities to ski if you are so inclined (no pun intended). I was able to ski fresh powder on Memorial Day - that's right - of course a snowmobile was involved as a means to get to the top of a pretty challenging run - but first tracks were had on Memorial Day!!! You just never know!

Karen Wehrman  
President

Welcome back to all members who participated in the Danube Cruise - a great time was had by all. Fifty-nine members were in attendance, which made for a lively and fun time!

Many, many thanks to Tucker and Kathy for organizing and leading this great trip. I don't know about anyone else, but I came home feeling like I had great fun, learned a little about that part of the world and feeling grateful for the travel opportunities that are offered through our ski club. A win - win all the way around.

At the May 18 meeting at the Brass Door in San Ramon we had a good turn-out and a vote was taken regarding having one meeting per month from now on. The vote was an almost unanimous "yes" with one dissenter (by someone who feels they have enough change happening in their lives already), so we will be going to one meeting per month starting in June - the third Wednesday of the month. Check the calendar for the date and location.

In July and August we will have outdoor Bar-B-Que meetings at a member's home, so be sure to watch for that information, too. These are always fun and casual meetings, with lots of great food and friends, so I hope to see you there.

Thank you to Fred and Marsha Rubis for hosting the Vin et Cuisine event again this year in August. This is always a wonderful event at the Rubis's lovely home and I hope everyone can attend.

So there you go, lots more fun stuff happening this summer, if we ever have summer. Keep those skis tuned, maybe we'll see fresh tracks on Independence Day!

Karen

**What's up in the future?** Many of you asked this question on the Danube Cruise so I thought I'd let you know what we are thinking about. We still want to do the Amazon; we are waiting for some info to look over. It would be from Peru instead of Brazil. We also have a "soon to become" hot new destination on our short list. Since many of you have been to Costa Rica we thought this would be a good choice. We have also talked about Chili and Easter Island. So...there you go.

## **SOUTH AFRICA HIGHLIGHTS & SAFARI**

### **Some information on Sightseeing at Jackson Hole**

Jackson Hole and the surrounding areas offer some of the most amazing scenic vistas and wildlife viewing. During winter, peace and serenity of snow covered fields, hills, and mountains make for magnificent vistas and scenery.

**Yellowstone National Park** is open to snowcoaches and snowmobiles. Once in the park, be sure to take the time to walk around one of the guided areas such as West Thumb Geyser Basin.

**Grand Teton National Park** has reduced automobile access in the winter. The inner road from the Taggart Lake trail head, north of Moose, to the Jackson Lake Dam is closed during the winter. Access to these areas requires snowshoes or cross-country skis. The outer road still provides great views of the range during the winter.

# Rattlesnake Fact Sheet

## Awareness

There are several species of rattlesnakes common to California, but the Northern Pacific Rattlesnake is the most prevalent in the District's service area. The physical appearance of each snake is variable, but some general principles in distinguishing rattlesnakes are:

- Broad, triangular head with a noticeable "neck" behind the head.
- A rattle located at the tip of the tail. The rattle is used as a warning device when they are threatened.
- Vertical pupils (non-poisonous snakes have round pupils) though hopefully you would not be close enough to notice this!

Rattlesnakes can be found in rural areas, as well as suburban areas where there is sufficient natural habitat. In Northern California snakes will hibernate during cold months and are active March through September.

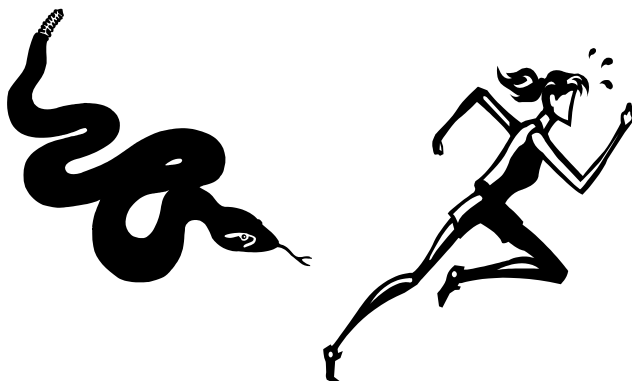

## Treatment

**Get to a hospital as soon as possible.** In the meantime, these first aid steps can be taken:

- Wash the bite with soap and water.
- Immobilize the bitten area and keep it lower than the heart.
- A suction device may be placed over the bite to help draw venom out of the wound.

Antivenin treatment is typically used to block the tissue destruction, nerve damage, and blood-clotting disorders caused by rattlesnake venom. Keep snake bite victim calm to avoid elevating their heart rate and accelerating the circulation of venom within the body. Do not attempt to make incisions at or around bite sites, apply ice, or use tourniquets, as this could be more destructive than the venom itself.

# TICKS AND LYME DISEASE

There are several species of deer ticks across the United States that become infected with the spiral bacterium, *Borrelia burgdorferi*, which can cause Lyme disease. Anyone walking through woodlands and brushy areas may be bitten by a tick and never know it. The tiny ticks, some the size of poppy seeds, may stay on your body for hours to days. The tick engorges itself with blood. If infected, the spiral bacteria are transmitted to the bloodstream of the person or animal during the bite. Not all ticks are infected with the spiral bacterium, *B. burgdorferi*. If the tick is saved, tests can be run to detect Lyme disease.

## Symptoms of Lyme disease:

Lyme disease is called the “great imitator” because it can look like other diseases. Many people with Lyme disease have been misdiagnosed with more familiar conditions such as Fibromyalgia or chronic fatigue. Partial lists of symptoms are as follows:

- Flu-like illness
- Rash (less than 60%)
- Bell’s palsy (facial paralysis)
- Extreme fatigue
- Sick feeling (malaise)

Stiff, aching neck, head ache, joint pain

- If bitten by a tick:
- Remove the tick immediately by grasping the tick as close to the skin as possible.
- Use tweezers or facial tissue to remove the tick, and never bare fingers
- Use a straight, steady pull. Do not twist or squash the tick.
- Save the tick for identification.
- Contact your local vector control office for identification.

If it is a western black-legged tick please consider sending the tick to a laboratory that is authorized to test the tick for Lyme disease. Igenex Laboratory in the South Bay is an authorized laboratory.

## THANK YOU FOR REMEMBERING....

### A VERY SPECIAL THANK YOU FROM THE JIM KORN FAMILY

Thanks from a grateful son to the friends and family of Jim Korn.....

Anyone can be a father, but it takes extraordinary individual. A caring and compassion, a fiery personality with a dear friend to all who crossed his path where you stood with Dad and he taught your word so when you make a stand,

someone special to be a Dad. He was an ex-loving father, a devoted partner, a man of child's heart who lit up all around him, and a during his living days. You always knew me that to be a man, you must to be true to you'll be heard.

He gave me his favorite watch two chronograph and he lit up in telling me would run forever. He always had a fast-know, the mechanical clocks on the the pace of his life. Upon returning for restoration. It has found a new home on my wrist and each time I check the time, it reminds me of that precious moment. As it ticks away, it brings me closer to the time when I will see him again.

weeks before he died, it was a mechanical about its design saying if I took care of it, it cination for timepieces, and as many of you wall of his home would tick and chime with home, I took it to a trusted old watchmaker

When Paula had the idea for having a party, I could not have been more pleased. I know in my heart he was watching us all and was happy to see his family and friends celebrating his legacy. I want to extend my families' appreciation to you all for making us feel welcome and sharing your stories of Dad with us. Trying to assemble a list of people to thank is a dangerous thing, you always end up leaving someone out but I must mention a couple of dear friends who made this all possible. First, to Diana Gartland who has given so unselfishly of her time and love, spent tireless hours with me and Paula in comforting us, and who arranged this event. And secondly, to Bob Petersman for opening up his home to guests and family so that we could all gather to celebrate Dad. On behalf of my wife Terri, my sons Braden and Jared and my sister Julie and her husband Steve, thank you from the bottom of our hearts. What a grand tribute to a wonderful father and friend. We all love you Dad and miss you very much.

Jim Jr.

## *CVSC Riverboat Trip down the Danube*

On April 29<sup>th</sup>, 59 Castro Valley members departed for Vienna via London. The SFO & LAX groups met up in London and arrived in Vienna as one group for a slam-dunk trip through seven countries in ten days followed by a three-day land extension in Romania.

We boarded Der Kleine Prinz riverboat to begin our cruise on the Danube. After dinner, we gathered in the bar for an orientation meeting with Dusan. Even though he was born in Serbia, his English is almost perfect due to his many years living in the U.S.

The first level consisted of cabins, the reception desk and storage. There was even an elevator. The second level had more cabins, the bar where we had nightly entertainment, and the dining room.

Most meals were covered in the price of the trip and were served on the boat. The food was not gourmet but generally good and plentiful. Breakfast was a buffet. Lunch was a salad buffet followed by an entrée and fruit or dessert. For dinner, we had an appetizer, soup, one of two entrée choices, and dessert. Castro Valley served wine almost every night with the dinners.

There was entertainment & dancing every night in the bar. Karaoke one night, which turned into a talent show. Ralph Sherman and Christina Moritz (Lola) won. We had a Serbian Folklore performance and sweater fashion show on board. One wild night we even had pole dancing, after an afternoon of wine tasting and then more wine with dinner!

We had a great time and many memories to carry with us. Thank You all for joining us.

Tucker & Kathy
