## Remembering Eva.....

(her last ski trip at Sun Peaks, BC 2016)

# Castro Valley Ski Club Newsletter

## President's Message

Dear Members and friends:

This month's message is a sad one as we lost our good friend Eva Lanphear to ALS. She was an energetic and lighthearted person always with a smile, a laugh, and a love of life. She loved skiing, traveling and all of you!!!

Claudia Fernandes  
President

She loved her job and once she retired she was ready to see the world and she saw a lot of it with us. Her brother said that her passion was to go and see as much as she could, she was on the go all the time. She told me she had no regrets and was so happy to have spent so many trips traveling with our ski club and making new friends. She had seen and done a lot and enjoyed spending time laughing, drinking, eating and seeing the world with us all. A celebration of life is being planned in a couple of months. We will let everyone know once we hear when it will be. I have called many of you and sent out emails to BAC, Dennis H. and others that had been close to her. She received all of your cards and phone calls, so please know that she was so appreciative of your friendships.

We will miss you terribly Eva!!!!

We hope to see you all at our upcoming meeting at Ron White's this month. Thank you Ron for sharing your home with us as I know this has been a challenge with all the work they are doing around your home area.

**Many thanks** again to the board, our volunteers, and members for the time and support you give to the club.

I look forward to working with all of you and hope to see you all at our upcoming meetings and events.

**Take Care.**

**Claudia**

## Our Vice President

As I write this newsletter I am in the final throws of packing and getting my house in order before I leave for the CVSC Croatia Trip. I am looking forward to this overseas adventure. Tucker and Kathy have put together a wonderful trip as usual. If you are not on this trip we will make sure we get some pictures and input via our next newsletter.

Anne Wilburn  
Vice President

By now many of you have heard of the passing of our beloved Eva Lanphear, she was always game for travel and a good time. She held many offices throughout her time with CVSC and she will be missed.

Your BAC Officers are busy finalizing this upcoming fall and winter activities, and as soon as they are finalized you will have that information. Dennie does a great job keeping us up to date by including the flyers for upcoming events in our newsletter.

We invite our members to contribute interesting and informative information that will make this club better informed and entertained.

Well as Bugs Bunny says, "That's all Folks".

Anne Wilburn

As I write this travel update I am packing for the Croatia Trip. We have 38 from CVSC going. We have chartered a yacht plus we are all doing a pre-trip land tour to Zagreb. I think it's going to be great one!

It is with great sadness that I bring this news. Eva has passed away. We all knew something was going on... just not what. She had Lou Gehrig's disease. We got a really nice card from her about a month ago expressing how grateful and lucky she was to have traveled and with such a great group of friends. We will miss you Eva. You were our trooper!!

## How Zika spreads

- Zika can be transmitted through Mosquito bites, from a pregnant woman to her fetus

Many people will not have symptoms or will only have mild symptoms. The most common Zika symptoms: Fever, Rash, Joint pain, conjunctivitis (red eyes). Other symptoms include muscle pain and headache.

Symptoms can last for several days to a week. People usually don't get sick enough to go to the hospital, and they very rarely die of Zika. Once a person has been infected with Zika, they are likely to be protected from future infections.

## How to prevent Zika

There is no vaccine to prevent Zika. The best way to prevent diseases spread by mosquitoes is to protect yourself and your family from mosquito bites. Here's how:

### Clothing

- Wear long-sleeved shirts and long pants.
- Treat your clothing and gear with permethrin or buy pre-treated items.

### Insect repellent

- Use [Environmental Protection Agency \(EPA\)-registered insect repellents](#) with one of the following active ingredients: DEET, picaridin, IR3535, or oil of lemon eucalyptus or para-menthane-diol. Always follow the product label instructions.
- When used as directed, these insect repellents are proven safe and effective even for pregnant and breastfeeding women.
- Do not use insect repellents on babies younger than 2 months old.
- Do not use products containing oil of lemon eucalyptus or para-menthane-diol on children younger than 3 years old.

## How Zika is diagnosed

- Diagnosis of Zika is based on a person's recent travel history, symptoms, and test results.
- A blood or urine test can confirm a Zika infection.
- Symptoms of Zika are similar to other illnesses spread through mosquito bites, like dengue and chikungunya.
- Your doctor or other healthcare provider may order tests to look for several types of infections
